

How to Use: Steamer Solutions

- 1 Remove your new steamer from the box.
- 2 Leaving unit unplugged and off, attach steamer arm to unit body.
- 3 Lift flap on the top of the steamer, remove rubber plug, then pour water into the vessel, filling to line on water cup.
- 4 Plug in steamer, and turn on "Steam" and "Ozone" buttons.
- 5 When steam is ready, position your face at least a foot away from your face.
- 6 Enjoy your steam treatment for at least 10 minutes.
