

Bumble and bumble.

Surf Spray (beachy texture)

Sexy, beachy, windswept styles – whenever, wherever.

Step 1: Separate entire head into 5-6 sections.

Step 2: Twist first section of hair into a rope and evenly apply Surf Spray to entire twist without saturating.

Step 3: With your palm, cup the twisted section and squeeze up towards the scalp, and then release; the heat from your hand will encourage the natural texture and the product to perform.

Step 4: Repeat these steps with the remaining sections.

Step 5: Let hair dry for 3-5 minutes (keep squeezing sections, like in Step 3, to help speed up drying time).

Step 6: Unwind sections and shake loose to reveal beachy texture.

Finished look

Stylist's Tip: To enhance natural texture and wave, cleanse and condition with Surf Shampoo and Conditioner. To create more separation, calm frizz and add moisture, press Grooming Creme into hair from mid-length to ends after applying Surf Spray.
