N/A

**Expected Results**  
Pigment, texture, fine lines

## Age-Defying Laser

**Social Downtime**  
Zero

**Clinical Downtime**  
Zero

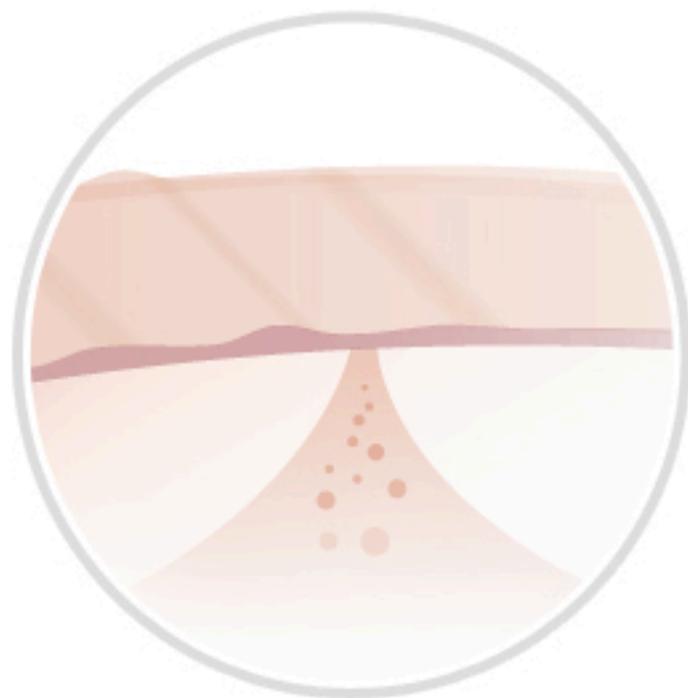

**Expected Results**  
Pigment, texture, fine lines

# How the Age-Defying Laser works

## TREATS SKIN FROM WITHIN

Beams of light penetrate the skin to create microscopic zones of cellular disruption. The skin feels warm, but the surface is left undisturbed.

## STIMULATES NATURAL HEALING

The body's natural healing process springs to action, working to rapidly heal the treated areas by stimulating collagen production.

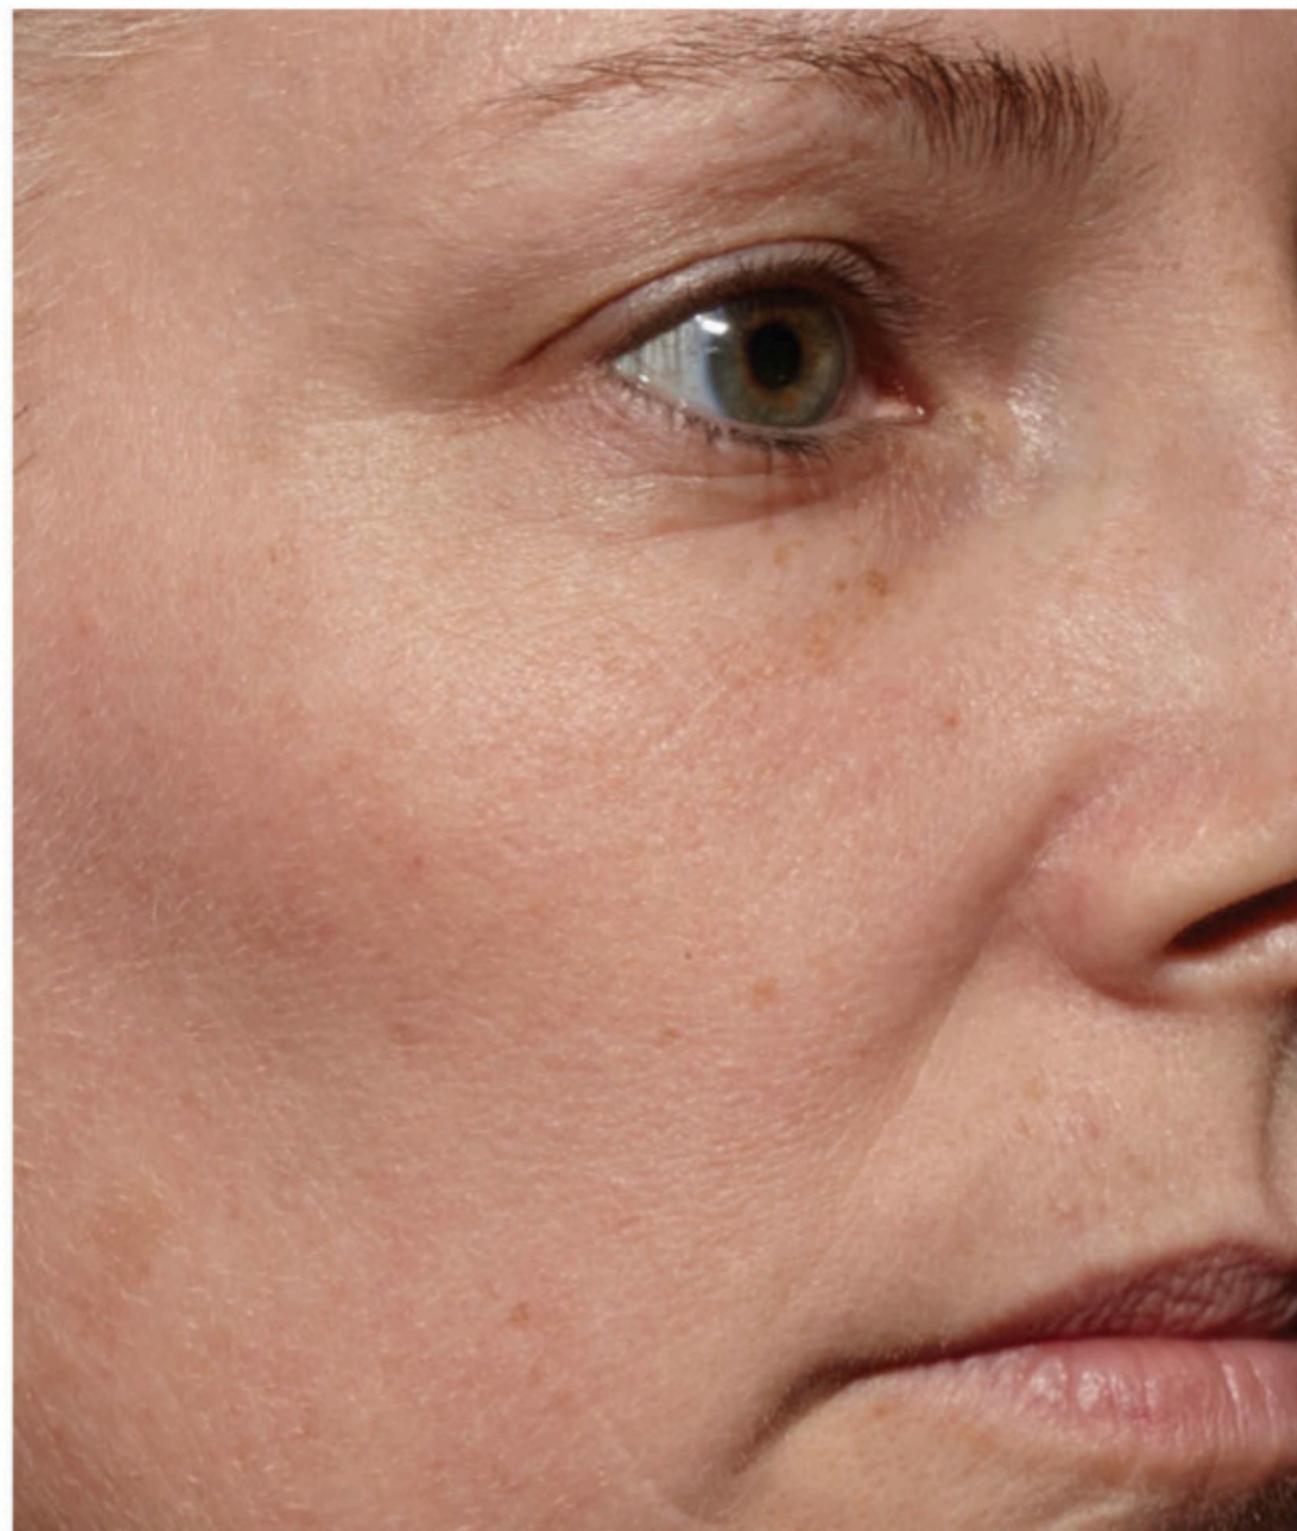

## REBUILDS NEW COLLAGEN

As new collagen forms, fine lines, wrinkles and imperfections are naturally sloughed away.
