

KORRES NATURAL PRINCIPLES

THE SMART NATURALS

We truly know naturals inside out. We started at the KORRES Pharmacy with prescription **natural remedies**. We then evolved to SMART NATURAL beauty remedies with clinical efficacy.

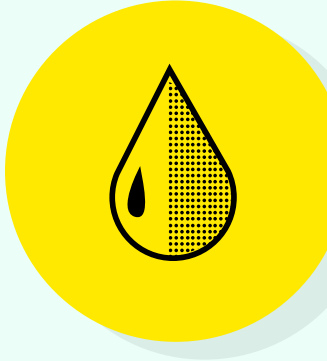

POWERED BY THE GREEK FLORA

GREEK FLORA features thousands of plants only found in Greece that have developed **unique defense** mechanisms to survive. Their defense mechanism is what we focus on in order to formulate our skincare line, empowering skin against any damage.

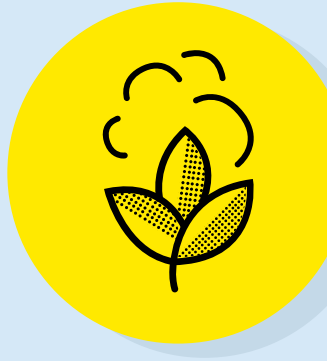

TRUE BEAUTY IS SILICONE FREE

We want nontoxic beauty for our skin and our planet. We formulate without silicones, parabens, formaldehyde, mineral oil, phthalates, propylene glycol, synthetic dyes and harmful fragrances among others. We do not want pore-clogging silicone fillers, we want **TRUE** beneficial **BEAUTY**.

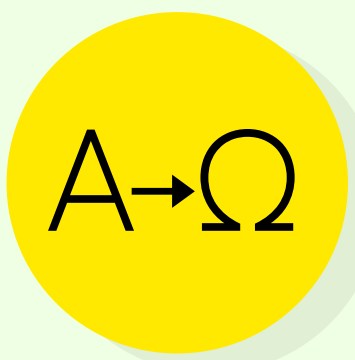

ULTRA PURE WATER

Water being the key ingredient in any cosmetic formula, the need for it to be as pure as possible is non-negotiable. KORRES **ULTRA PURE WATER**, produced in our proprietary water purification plant, is 250 times more pure than standard bottled water.

SCENT INNOCENCE

Not all synthetic fragrances are bad as not all natural fragrances (essential oils) are good. Having our own in-house Research & Development team, at KORRES we opt for **INNOCENT FRAGRANCE** that is **free of** phthalates and pcm-compounds, the standard hidden guilty ingredients that can make fragrance irritating

ABSOLUTE ACCOUNTABILITY

We own the process from **start to finish**; from plant cultivation, to harvest, natural extractions, in-house formulation and production, primary research and clinical efficacy.
