

GOT GLITTER QUESTIONS? WE HAVE ANSWERS!

1

Will the glitter be left behind on my face?

For a perfect glitter effect and peel, allow mask to dry fully before removing. Be patient and take lots of selfies!

3

Will the glitter clog my pores?

No, the glitter will not clog your pores.

5

Why would you put glitter in skincare? What does it have to do with skincare?

We believe that serious skincare can be fun. We've been innovating our #GRAVITYMUD Firming Treatment collection with color, now we've taken it to the next level with glitter!

2

Will the glitter wash into the water cycle and harm animals/our water?

The mask peels off and is discarded in the trash. If any excess mask remains, wipe from face.

4

Will the glitter particles scratch my face?

The glitter particles are suspended in the gel formula and are comfortable to wear.

6

What is your glitter made of? Is it plastic?

#GLITTERMASK is made with the same high-quality cosmetic-grade glitter used in facial makeup. It also peels off to be discarded in the trash (not rinsed off with water).

This product is designed for adult use only.
