

INTRODUCING PEACE OUT ACNE

PEACE OUT ACNE HELPS TREAT, PROTECT AND HEAL BLEMISHES IN SIX HOURS

ZAP THAT ZIT!

These healing acne stickers use Salicylic Acid to kick acne-causing bacteria to the curb, while Vitamin A helps speed healing and Aloe Vera soothes redness.

The first Acne Healing Dot made with Hydrocolloid Dressing infused with active acne-fighting ingredients to heal breakouts. Because the war on acne is real.

“Peace Out isn't just changing the skin care game, it's pioneering a new one. We believe that skincare should be simple.”
