

# Enhance your make-up

After applying color cosmetics, hold can about twelve inches from face and spray in a circular motion for 2-3 seconds. The fine mist helps blend and finish makeup into a smooth, natural look

During the day, hold the canister further from face and lightly mist directly over make-up to refresh and highlight color.

## Styling Tips

Going out after work?

Feel confident to spray over your cosmetics - revives color.

Hairstyle needs a quick fix?

Spray hair and restyle with or without heat.
