HOW TO: DAY-TO-NIGHT TOUCH UP SET

Instantly take your makeup look from day to night using the Day-to-Night Touch up Set with beauty influencer Deepica Mutyala (@deepicam)!

DAY

NIGHT

To take your makeup look from soft muted Day to sultry Night, add a subtly sexy shimmer by applying the Highlighter Stick to cheekbones, brow bones, down bridge of nose, and above Cupid's bow. Amp up eyes with the Shadow Crayon, blending with built-in blender. Bring out your pout with the Lip Crayon – use matte lip crayon to line and define lips and top off with shiny balm. Toss your crayons into the Le Pak Luxe Bag for anytime touchups!
