

ESTÉE LAUDER

3 MINUTE BEAUTY

Highlight & Contour

Sky-high cheekbones. Sensuous contours.

2 E-asy techniques.

Step 1

With a **highlighter**, trace a backward "E", starting above brow at inner corner. Glide pen along nose to just below eye - the first arc of the "E". Then, bring line in toward base of nose and out underneath cheeks and blend.

Step 2

With **Powder Brush**, brush **bronzer** in a forward "E" from above brow to hairline, along temple, below cheekbone, along jaw. Repeat other side.
