

OUR **C-FIRMA™ DAY SERUM** IS LOADED WITH THE GOOD STUFF— L-ASCORBIC ACID (VITAMIN C) AT A WHOPPING 15%

In combination with powerful ferulic acid C-Firma™ helps to firm and brighten skin's appearance while defending against pollution, photoaging and environmental stressors .

But did you know that it's also loaded with VITAMIN D?

LET US GET SPECIFIC:

We've built our day serum around a special anti-aging chronopeptide that actually transforms into **Vitamin D**. It brings the benefits of vitamin D without the sun.

In other words?
IT'S MUCH MORE THAN JUST VITAMIN C.
