

Your key to bright, youthful eyes

The eye area needs special treatment. Find your perfect TLC.

The eye area ages the fastest because the thin skin around the eyes is more prone to lines caused by facial expressions and sun damage. Apply creams with ingredients that rebuild collagen, such as vitamins, antioxidants, and essential oils.

WHY

- Immediately reduces bunny lines, fine lines, and wrinkles
- Contains ECG Complex™ to help strengthen skin
- Silky, creamy formula seals in time-released hydration

- Firms, smoothes, and tightens
- Powerful combination of Ferulic and Retinol works to reduce visible signs of aging
- Lightweight serum absorbs immediately for visible results
- Works as a primer for long-lasting eyeshadow

- Immediately firms and depuffs eye area
- Gel-cream contains Hydra-Pure™ Chelating Complex to protect skin
- Contains essential oils to soothe and hydrate dry, aging skin

- Brightens the appearance of dark circles while tightening
- Features rejuvenating peptides with vitamins A, C, and E
- Hydrates and refreshes tired eyes

HOW TO APPLY: USE AM AND PM

Apply over entire eye area including under the eye and above the brow

Apply to the entire eye area, including the eyelid

Apply to the under eye area and corner

Apply to the under eye area and corner

DR. GROSS SAYS

"The periorbital skin around the eye area is prone to breakdown of collagen and elasticity. This deeply hydrating formula combines powerful anti-agers with a healthy dose of GABA for an instant BOTOX-like effect."

"Crepey, drooping eyelids age you so I researched a way to provide 360° treatment of the eye area, including the lid, to improve the appearance of crow's feet, lines and firmness of the eye area."

"The skin around the eye area is thin, requiring a cream that is strong yet gentle. This formula combines the benefits of the Hydra-Pure Chelating Complex® with 14 powerful ingredients that stimulate collagen and prevent its breakdown, revealing an immediate lifting effect around the eye area that is sustained with continued use."

"Lifestyle habits such as nicotine, alcohol, and caffeine cause dark under-eye circles. Lift & Lighten is specifically formulated with light diffusers that will brighten the eye area."
