

OFPMA

70%
MORE

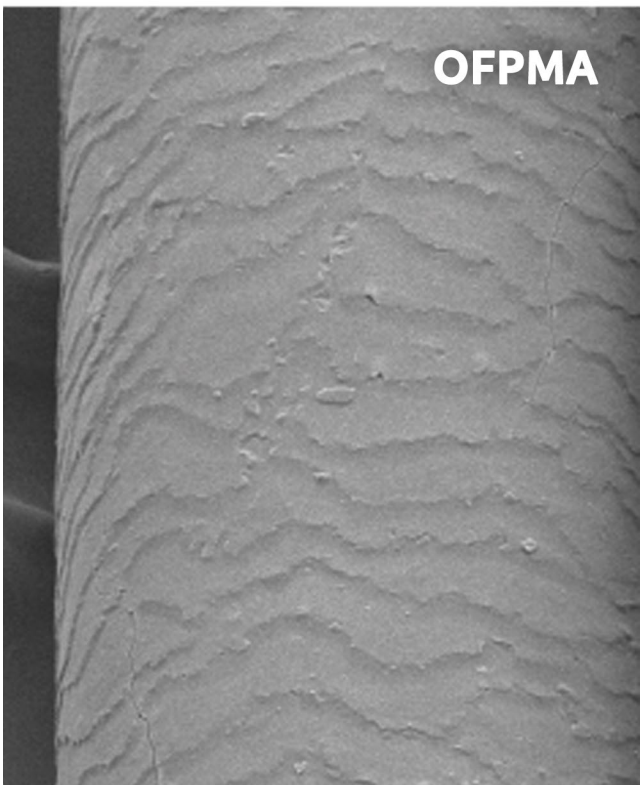

SILICONE

Our patented Healthy Hair Molecule (OFPMA), is proven to be 70% more effective at blocking humidity than the most widely used anti-frizz technology that is based on silicone.

SILICONE

OFPMA

Our patented Healthy Hair Molecule (OFPMA):

- creates a weightless invisible shield that wraps around each strand
- blocks humidity and smoothes each strand
- is weightless, so hair is polished without feeling heavy or greasy
