

"Nightingale" Smoky Eyeshadow Palette

How To Get The Look

Step 1

Use a shader brush to sweep **Silver Spoon** over the lid and lower lash line.

Step 2

To brighten the look, highlight the brow bone with **Nocturnal** using a fluff brush.

Step 3

For your transition shade, apply **Hide & Seek** in the crease under the highlight using a blending brush.

Step 4

Using a pencil brush, place **Flip Out** in the darkest part of the crease.

Step 5

Add **Break Free** to the inner corner of the eye and inner corner of the lower lash line with a shader brush. Spray the same brush with our **Lock It In Makeup Setting Spray** and apply the shadow to the center of the lid.

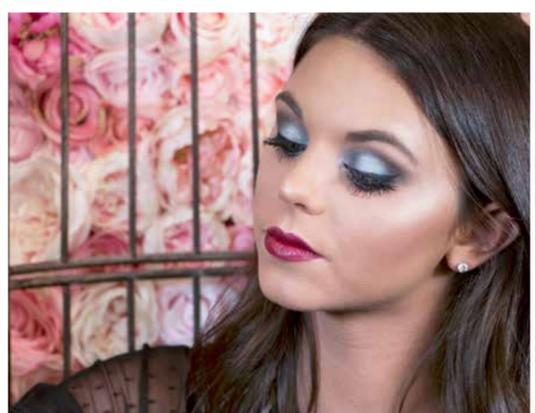

Step 6

To enhance the look, use our **On Point Liquid Eyeliner Pen** to add a wing.

Step 7

Finish the look by adding **The Feathers Mascara** to your lashes!

The look is complete!
