

SEPHORA + PANTONE UNIVERSE

correct & conceal palette

In partnership with global color authority Pantone, Sephora Collection brings you our first-ever Color Correct and Conceal 2-in-1 Palette—the first product of its kind for color correction and concealing. Featuring a range of expertly-selected shades and full-coverage, ultra-blendable formulas, each palette addresses the common concerns of dark circles, redness, discoloration, and dullness. Available for both light/medium and medium/dark skin tones.

what it does:

COLOR CORRECTING SHADES
CORRECT
HYPERPIGMENTATION
REDNESS
DULLNESS
DARK CIRCLES

6 Shades to help neutralize and minimize the most common skin concerns.

FULL-COVERAGE CONCEALERS
COVER
IMPERFECTIONS

9 light-weight and buildable concealers to completely cover imperfections.

use it with:

PRO PRESS FULL COVERAGE PRECISION BRUSH #67
Compact, dense bristles allow you to focus and build correction precisely where you need it

how to use:

STEP 1 - CORRECT

After prepping the skin with primer, lightly saturate the tip of the brush and build coverage with a tap & press technique. Apply correction where imperfections are most prominent: under the eye, dark spots or blemishes. Build correction until color is neutralized and minimized.

STEP 2 - CONCEAL

Layer using the PRO Flat Concealer Brush #45 and concealer from the palette to restore the skin-stone and completely cover the area of concern.

STEP 3 - SET

...for additional brightness.

PRO TIP

To create a highlighted look on the face, use a lighter shade of concealer. Apply on the plain, underneath the eye, chin, on the bridge of the nose and under the brow bone.
