

SEPHORA COLLECTION

PRO PRESS BRUSHES

Makeup shouldn't be your cardio. Get a revolutionary sponge-like finish with just a gentle press. It's full coverage without swirling, buffing, huffing or puffing.

Specifically designed with the finest synthetic fibers, these new Pro Press brush shapes help you provide precision placement to help you conceal, accent and detail. Designed to maximize both worlds, a brush that is designed like a sponge to help absorb and deposit product while the short, dense bristles help to spread and blend across the face. Patent pending.

PRO PRESS FULL COVERAGE COMPLEXION #66

- Most full coverage complexion brush in our PRO line.
- Works best with both cream and liquid formulas, can be used with powders for baking.

PRO PRESS FULL COVERAGE PRECISION #67

- Pairs best with foundation and concealer, can also be used for highlighting, contouring and color correcting.
- Works best with both cream and liquid formulas.
