Oil-Control Mattifier

SPF 15 | PA++

## All-Day Matte Makeup Look

Create a matte makeup look that lasts with this ultimate oil-control duo.

### Step 1

Oil breaks down makeup, so prep skin with **InstaMatte™ Oil-Control Mask** for a fresh, matte canvas.\*

P10 Tip

Mask can also be used as a daily cleanser.

### Step 2

Press and pat **Oil-Control Mattifier SPF 15 | PA++** into skin to help control oil for up to 8 hours.\*

### Step 3

Apply **matte foundation**, blending from the center of your face outward.

### Step 4

Sculpt your face with **matte bronzer** to give your look dimension. Apply **blush** to cheeks for a pop of color.

P10 Tip

For a natural flush of color, use your bare lip color as a guideline for selecting the perfect blush shade.

### Step 5

Apply **peachy eye shadow** all over eyelids and **warm bronze eye shadow** to the outer corners and creases for an understated, classic look.

P10 Tip

Use your matte bronzer and blush as the lid and crease colors.

### Step 6

Apply **peachy-nude matte lipstick** to lips to complete the look.

P10 Tip

For a long-lasting matte lip, line and fill in lips with lip liner. This also adds structure for a more polished look.
