

Living proof.®

## Perfect hair Day™ Body Builder

is a customizable body building hairspray that creates instant, buildable body with airiness, movement and light hold.

### THE SCIENCE

**Perfect hair Day™ Body Builder** has a customizable nozzle that allows you to adjust the amount of body you add to your style just by turning the nozzle. Turn the nozzle toward **more (M)** for a particle size that's 46% bigger with a 25% higher spray rate, designed to give you a lot of body. Turn the nozzle to **less (L)** for a lower spray rate and particle size to give you a little body.

### Key Ingredients:

- Optimal ratio of flexible polymers and firm polymers that work in tandem to create body with softness on both settings
- Shine emollient blend adds natural shine and helps to make the polymers blend together and become more flexible and soft
- Anti-static agents help with static, brushability, and conditioning

custom nozzle  
lets you add *just*  
the right amount

### USAGE

Turn nozzle for **more (M)** or **less (L)** body. Hold can 6-10" away from styled, dry hair. Section hair and spray.

Finish with a final spray for extra body and hold. DO NOT turn nozzle past the **(M)** and **(L)** markings on silver ring.
